SATIN CRÈME

Quaker's powder-coat paint finish is applied in our in-house painting facility. Then it is baked on for a long-lasting finish.

All of Quaker's in-house paint finishes meet ANSI/AAMA 2604 paint specifications.

Custom finishes and coatings are also available. The options most often specified include:

2605: Meets specifications for 70% Kynar finish. Also meets or exceed ANSA/AAMA 2605-90 specs. For use in the most demanding environmental conditions.

Anodized: Anodic coatings provide excellent color saturation with minimal variation. Weather resistant colors are available from clear to black.

NOTE: COMPUTER GRAPHICS MAY NOT ACCURATELY REFLECT THE ACTUAL PAINT COLOR SHOWN. QUAKER DOES NOT ASSUME ANY RESPONSIBILITY FOR ANY MISREPRESENTATIONS OF OUR STANDARD COLORS. FOR AN EXACT COLOR MATCH, PLEASE CALL YOUR NEAREST AUTHORIZED QUAKER DEALER FOR AN ACTUAL COLOR SAMPLE.
