

# Quaker Vinyl Windows & Doors

can save you money on your energy bills and possibly qualify you for up to \$500.00 credit on your federal income tax.\*

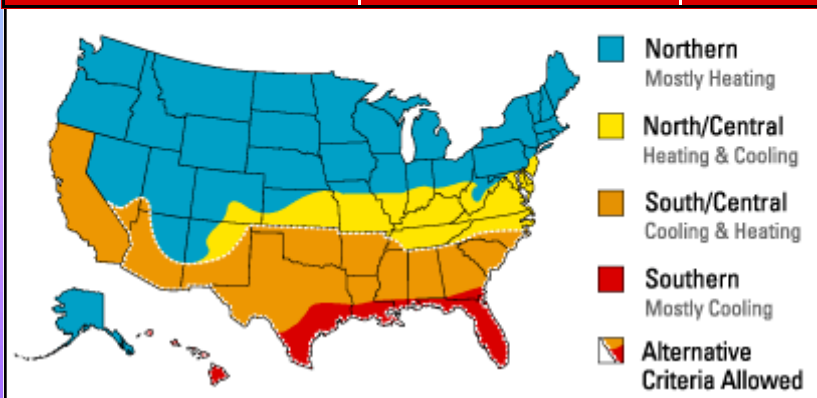

The Department of Energy is allowing homeowners the chance to take advantage of tax credits for energy-efficient improvements, including windows and doors.

Qualifying window and door products must meet Energy Star® requirements for your region.

### Energy Star® performance levels:

| Climate                                 | U-Value              | SHGC                 |
|---|----------------------|----------------------|
| <b>N=Northern</b>                       | <b>.30 and below</b> | <b>any</b>           |
| <i>(Northern alternate criteria #1)</i> | <i>=.31</i>          | <i>.35 and below</i> |
| <i>(Northern alternate criteria #2)</i> | <i>=.32</i>          | <i>.40 and below</i> |
| <b>NC=North/Central</b>                 | <b>.32 and below</b> | <b>.40 and below</b> |
| <b>SC=South/Central</b>                 | <b>.35 and below</b> | <b>.30 and below</b> |
| <b>S=Southern</b>                       | <b>.60 and below</b> | <b>.27 and below</b> |

All of Quaker's vinyl windows & doors meet tax credit/Energy Star® criteria (see chart) with the addition of Low-E & argon gas.

\* Certain limitations apply. Consult your tax preparation advisor or the IRS for complete details.  
 \* U-Value & SHGC, the two determining factors for tax credit qualification, may vary slightly depending on the insertion of grids, but will not affect qualification status.  
 \* Larger picture windows (at least 20 sq. ft.) may require the use of a thicker glass which may affect tax credit qualification.

For complete information, see [www.energystar.gov/taxcredits](http://www.energystar.gov/taxcredits)

# Quaker's Brighton™ Series wood clad windows are qualified for Tax Credit eligibility.\*

Save money on your energy bills and possibly qualify for up to \$500.00 credit on your federal income tax\* using Quaker wood clad windows.

Qualifying windows must meet Energy Star® requirements for the area in which you live.

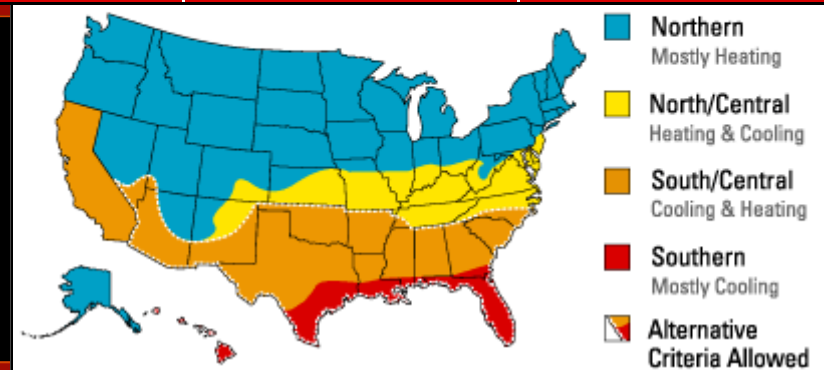

Many of Quaker's wood windows and doors meet tax credit/Energy Star® criteria with the addition of optional glazing packages. These glazing packages vary from product to product. Please inquire with your Quaker dealer for full information.

### Energy Star® performance levels:

| Climate                                 | U-Value              | SHGC                 |
|---|----------------------|----------------------|
| <b>N=Northern</b>                       | <b>.30 and below</b> | <b>any</b>           |
| <i>(Northern alternate criteria #1)</i> | <i>=.31</i>          | <i>.35 and below</i> |
| <i>(Northern alternate criteria #2)</i> | <i>=.32</i>          | <i>.40 and below</i> |
| <b>NC=North/Central</b>                 | <b>.32 and below</b> | <b>.40 and below</b> |
| <b>SC=South/Central</b>                 | <b>.35 and below</b> | <b>.30 and below</b> |
| <b>S=Southern</b>                       | <b>.60 and below</b> | <b>.27 and below</b> |

Quaker Wood Clad Patio Doors can also qualify for Energy Star® / Tax Credit eligibility. See your Quaker dealer for more details.
